THE BASIN COLLECTION

The Basin

TABLE-TOP, PEDESTAL AND WALL BASINS, AND ACCESSORIES

Carved whole.
Never assembled.

A basin is the one piece in a bathroom you touch every day. It should feel as good in the hand as it looks across the room.

Each basin in this book begins as a single block from our quarries in and around Makrana, the seams that gave the Taj Mahal its marble. Our family has worked this stone for more than a century and a half.

Blocks are cored, turned and carved in our own workshops. Fluting, chiselling, lattice and brass inlay are done by hand, and machines are used only where they make that hand work more precise.

Every piece is finished, sealed, checked and crated in Makrana, then shipped to homes, hotels and studios around the world.

From the same hands that made the Taj Mahal
